Blaine, Arthur and Edmunds Having a  
Three Cornered Fight in the  
New York Convention.

More Delegates Chosen Which Seem to  
Add to Arthur's Strength--Killed  
by a Playmate.

A General and Complete Summary of  
the Most Important News  
of the Day.

The New York Republicans.

UNION, N. Y., April 23.—Arrangements are completed for the republican state convention, which meets here at noon to-day. There is intense feeling of uncertainty as to the outcome of the struggle for supremacy in the convention, but it is generally conceded that the Edmunds delegates, if they work in unison, will throw the organization of the convention into the hands of either Arthur or Blaine. The Edmunds men held several conferences last night and overtures were made there by leaders of the Blaine and Arthur forces, but they refused to treat or name any terms other than naming four delegates-at-large and the temporary chairman. The Arthur leaders accepted the proposition of the Edmunds men this morning and the latter named Andrew D. White, Edwin Packard, Theodore Roosevelt as delegates-at-large, and Senator John I. Gilbert as temporary chairman. The Edmunds men claim from 60 to 80 delegates, while the adherents of Arthur claim a few over 200. It requires 249 votes to control the convention and should the combination hold there is likely to be a short session.

About noon the Blaine men changed their programme for the delegates-at-large, and substituted the names of Roosevelt and Gilbert, which are already on the combination ticket, for those of Sloan and Irwin, endeavoring to break the combination. The Edmunds men refused to accept this compromise. The convention was called to order at 12:30. Roosevelt then nominated Nathaniel C. Boynton, Arthur's candidate for temporary chairman. Warner Miller moved to substitute the name of Edmund L. Pitts for temporary chairman. The roll call was ordered.

The delegates from the twenty-third congressional district this morning elected as delegates to the national convention, Leo R. Sanborn and George H. Urban, jr. One of them is for Arthur and the other for Edmunds. Boynton was made chairman amid loud applause. The committees were then appointed.

IN CONNECTICUT.

HARTFORD, Conn., April 23.—The republican state convention met here to-day with a large attendance. Hon. Samuel Benson was chosen both temporary and permanent chairman. The mention of Arthur's name was received with a round of applause, and there was prolonged cheering when General Hawley was mentioned. The convention selected as delegates John L. Houston, Samuel E. Merwin, jr., Augustus Brandage and Frederick Mills.

A resolution endorsing Arthur's administration was passed.

IN WEST VIRGINIA.

CHARLESTON, W. Va., April 23.—The republican convention of the third congressional district met here this morning. After the appointment of committees the convention adjourned until 2 o'clock.

a passenger train was nearly due and being unable to extricate the animals he hurried to a station, half a mile distant, and informed the agent and the two took measures to stop the train which they succeeded in doing when but a few feet from the bridge. That tramp was lionized by the passengers, many of whom doubtless would have treated him very differently under other circumstances, and now holds a life position under the company. The old saying that many a warm heart beats under a rough exterior still remains in force.

The report of the condition of the city, made by Hon. Montgomery Hamilton, as chairman of the finance committee, to the city council last evening, shows the city to be in an excellent condition. This council determined at the beginning of the past year to place the city on a cash basis, and have succeeded far beyond their expectations. At this time there is not a dollar of floating indebtedness, city orders are cashed upon presentation and sell at par anywhere, there is sufficient money in the treasury to meet current expenses for the ensuing year, and best of all the city's debt has been decreased in the last year \$61,870.58. This decrease is two and a half times greater than for any previous year during the past ten years. The excellent showing here made shows that the affairs of the city have been in capable hands. By strict economy and careful attention to the work brought before them they have placed the affairs of the city in a better condition than any city within our knowledge. The people should remember that this has been done by a democratic council.

Councilman Hamilton last night op-  
posed a resolution to analyze St. Joe  
river and canal water. He said samples  
of the same water could be given to  
twelve different chemists and twelve dif-  
ferent reports would be received. This  
is the history of such cases and leads one  
to suspect that analytic chemistry, as  
practiced now, is a farce. No money  
should be wasted on it.

National library association, is in the  
city for the purpose of taking steps for  
the establishment of a library of this  
character here. Some time ago this  
matter was agitated here and a commit-  
tee was appointed, but no financial sup-  
port from the railroad companies was  
received. Mr. Ingersoll has now prom-  
ised aid from the railway officials and  
the matter will succeed. The commit-  
tee meets to-night.

The Masonic Temple trustees met last  
night to consider the manner of running  
the theater, whether to keep it in the  
hands of the Masons themselves or to  
lease. After considerable discussion it  
was decided to instruct Messrs. Sam B.  
Sweet, J. H. Simonsen and John Lillie,  
jr., the committee appointed to manage  
the entertainments, to advertise for bids  
for leasing the theater to responsible par-  
ties only, and report to the board for  
final decision, at their meeting on the  
first Monday in May. This does not de-  
cide the matter, as the trustees want to  
ascertain whether it is more profitable to  
rent the opera house or manage it them-  
selves. If they keep it themselves J. H.  
Simonsen may manage the house.

Last Regular Meeting of the Present City  
Council—The Water Works Question  
—Financial Status of the City  
—Other Gossip.

The city council held its last regular  
meeting, as at present constituted, last  
night. When that body convenes in  
May one-half the members will be retired  
or returned as they or their constituents  
see fit.

Col. C. A. Zollinger was in the chair  
and Councilmen Boltz, Brames, Doehr-  
man, Hamilton, Kramer, Michael, Mohr,  
Martin, Pope, Vordermark, Welch, Wes-  
sel, Wolf, Woulfe and Yergens were  
present.

Bills were allowed as follows: Street  
commissioner's pay roll, \$349.23; D.  
Meyer, \$2.20; S. P. Sheerin, \$9.20; Fred  
Lehneke, \$17.50; Lillie & Shoemaker,  
\$3.50; Jane Rossmann, \$5, and Meyer  
Bros. & Co., \$8.10.

The Pittsburg, Fort Wayne and Chi-  
cago railroad represented an error was  
made in the assessment of its property  
in this city. The city attorney and com-  
mittee on assessment and taxes will con-  
sider the matter.

The committee on finance reported  
having burned redeemed city orders to  
the amount of \$59,240.

At the last meeting of the council a  
resolution was passed ordering the com-  
missioners to condemn a right of way to  
the St. Joe river, below the French  
brewery, where it was proposed to get a  
water supply. Last night Councilman  
Michael moved to reconsider the resolu-  
tion, and his motion was agreed to. Mr.  
Michael explained that since his vote on  
the resolution he satisfied himself that  
the water in the St. Joe river, above or  
below the French brewery, is unfit for  
use, and the talk of either source was pure  
nonsense. Mr. Michael says the city  
must go to the feeder dam or we will  
never have a pure, wholesome and ex-  
haustless supply of water.

Councilman Hamilton opposed a re-  
consideration of the resolution, because  
if water was to be taken from the St.  
Joe river, below the feeder dam, it could  
be made as good and pure below the  
French brewery as above. Mr. Hamil-  
ton explained under what financial dif-  
ficulties the city labored in getting an  
expensive water supply and severely  
criticized the papers and individuals who  
opposed taking a water supply below the  
French brewery and favored running  
pipes above that institution. These  
Mr. Hamilton characterized as "blind  
leaders of the blind." If water was to be  
taken from the St. Joe river, below the  
feeder dam, it could be purified, below  
the French brewery as well as above,  
and besides the taxpayers would be saved  
the unnecessary expenditure of thous-  
ands of dollars, just to satisfy the whims  
of a few blatherers. Mr. Hamilton is  
right and a sensible view of the question  
will sustain him. If the city is driven  
to the St. Joe river, below the feeder  
dam, it should lay its pipes to the near-  
est possible river point and at the least  
expense. This SENTINEL believes that to  
go to the St. Joe river, below the feeder  
dam, is not wise, and further ventures  
the opinion that the feeder canal can be  
made serviceable and satisfactory. The  
canal, or a perpetual water supply  
from it can be purchased and  
either is the best way out of  
a hole, into which the council was thrown  
by supporters of a farcical Cook plan,  
that advises the expenditure of thousands  
of dollars experimenting with wash-tub  
water supplies. The council meets again  
next Tuesday evening to hear a report of  
City Civil Engineer Straughn as to the  
best water supply for the city to  
adopt. Mr. Straughn can immortalize  
himself by puncturing the Cook plan and  
recommending the best source of supply  
ever offered the city.

OUR TEMPLE.

A Glimpse at the Edifice and a Brief Refer-  
ence to the Expensive Material  
Used for Construction.

It is a matter of rejoicing with all of  
our citizens that the Masonic Temple  
and opera house is in the process of com-  
pletion, and instead of it being an eye-  
sore, as it has been for years, it will soon  
be an ornament to our beautiful city.  
Crowds of our citizens visit it every day  
and all admire the beautiful buff sand-  
stone that it is being trimmed with above  
the first story. This stone is rapidly  
working its way into the market and is  
becoming very popular.

We copy from the Toledo Bee: "For  
the information of the many who make  
inquiry about the beautiful buff sand-  
stone used for the cut-stone trimmings  
in the new Walbridge building on the  
corner of Jefferson and St. Clair streets,  
it is understood that Mr. N. B. Bacon,  
the architect, designed the building and  
the stone was cut and furnished by Mr.  
Neukam, who purchased it of the  
Michigan Stone Co. The com-  
pany has a representative in this city  
in Mr. Alex. Arnold who has for a number  
of years been connected with the Ohio  
companies. Judging from the past  
reputation of Mr. Arnold, the Ohio  
companies will have a rival of experi-  
ence and merit. The stone was speci-  
fied for the Toledo Blade building, a  
large fire proof building now being built,  
without competition, and has been adopt-  
ed for the court houses at Kalamazoo

The building committees for both of  
these court houses decided, after a care-  
ful examination of the different kinds of  
stone offered them, that they preferred  
this stone to any others, among which  
were the Amherst and Berea. We un-  
derstand one of the reasons that covered  
their decision was the uniform color of  
the stone and the fact that it improves  
in color the longer it is exposed to the  
weather.

Councilman Hamilton last night showed the council that the city's debt had been reduced \$51,670.56, from April 1 last year to April 1 this year. For the ten years preceding April 1, 1883, the average debt reduction was \$21,439.71, showing that the reduction last year was nearly two and a half times greater than any single year in the past ten years.

Mr. Hamilton also said the city was on a cash basis and need never again have a floating debt. This is democratic rule.

### The Boyle Murder Case.

Late yesterday afternoon the attorneys in the Boyle murder case succeeded in selecting the following jury out of 108 men called: J. H. Applegate, Maumee; William Parish, city; Amos Walters, city; B. F. Tinkham, city; L. O. Hull, city; N. B. Young, city; William Ryse, city; David D. Baxter, Monroe; James Cartwright, city; George Fulmer, Milan; Preston Chapman, Pleasant; Asa King, Pleasant.

Daniel Long was the first witness called and testified as to hearing the quarrel between Boyle and Casey. Mr. Long heard Boyle say he would shoot Casey, saw him pull the revolver and heard the fatal shot. He also saw Casey throw up his hands and gasp. This story he stuck to, although Messrs. Colerick and Oppenheim tried to rattle him.

Louis Bauer testified he attempted to arrest Boyle, who threatened to shoot him. Marshal Doggett, of Monroeville, gave his version of the case, and related the conversation between the prisoner and Casey. Marshal Meyer testified similarly, and Dr. Lister was on the stand this afternoon and testified as to the death statement of Casey, who accused Boyle of being his murderer, and also testified as to assisting at the two post mortems. He located and described the wound.

### Why the "Royal" is the Best.

The improved method by which it has been made possible to produce pure cream of tartar, has had an important bearing upon the manufacture of baking powder. By the process heretofore generally employed, it has been found impossible to remove all impurities, more particularly the tartrate of lime, which remained to such an extent as to greatly impair the quality of the cream of tartar, and to interfere seriously with the strength and wholesomeness of the baking powders into which it entered.

In the new process, which is owned by the Royal Baking Powder Company, of New York, and exclusively employed in its extensive tartar works, the imported crude grape acid is so treated as to remove all vestige of tartrate of lime or other impurities, giving a product heretofore unknown—a chemically pure cream of tartar.

By the employment of these superior facilities, the Royal Baking Powder Company has made the Royal Baking Powder, as the chemists certify, of the highest possible degree of strength, "absolutely pure" and wholesome, and with an always uniform leavening power. It is for these reasons that the "Royal" never fails to produce bread, biscuit, cake, etc., that are light, sweet, digestible, and wholesome; the eating of which is never followed by indigestion, or any of those physical discomforts attendant upon the partaking of improperly prepared food. In rendering possible the production of a baking powder possessed of these qualifications, the improved method of refining cream of tartar becomes at once a matter of material importance to the culinary world.

P. J. Fallon, J. F. Kane, Henry Monning and R. W. T. DeWald did honors at the church, and received the visitors in regal style. **A Perfect Medicine Chest.**  
SING SING, N. Y., Post Office, March 19, 1883.

One week ago, while engaged in my duties as assistant postmaster, I was taken with a violent pain or kink in my back; it was so painful I could hardly breathe, and I ached all over my body. I immediately sent for an Allocock's Porous Plaster and applied it over the seat of pain; in twenty minutes I was entirely relieved and cured. I have used Allocock's plasters in my family for over twenty years, and have found them wonderfully effective in curing coughs, colds, and pulmonary difficulties. They are a perfect medicine chest; they cure without the slightest pain or inconvenience, never leaving a mark on the skin.

Thomas Leary, President of Village of Sing Sing, N. Y.

One of the strongest proofs of the value of Kidney Wort's a remedy for all diseases of the kidneys, liver and bowels, is the fact that it is used and prescribed by "regular" physicians. Philip O. We have just placed on sale one lot of ten Cherry Bed room sets, which are such an extraordinary bargain that we devote this advertisement exclusively to them.

These ten sets ought all to be sold within ten days. The price fixed upon them is

\$39.75.

If it was a couple of weeks later in the season we should not sell them quite so low, for they are worth \$50 to \$60 a set. The lowest price of the manufacturer has been \$42.50 at wholesale; so you buy them at less than we usually could.

The beds are large and heavy. The bedsteads are seven feet high; the French dressers are marble top and have in them a large glass 24x30 inches; the washstands are marble top, with corner braces, and are of the combination style—three drawers and a closet.

There is no furniture dealer in this city who can buy these sets at as low prices as we sell them.
